XV edition of “Scuola Italo-Russa di Formazione Avanzata in Scienze Ecologiche, Ambientali e Naturali”

Sustainable Development of The Italian and Russian Parks and Reserves

In-depth day between Italian-Russian Experiences with the Nebrodi Park experts

The Covid19 emergency has not allowed to carry out the classic Italian-Russian Summer / Winter schools in collaboration with the Nebrodi Park.

With the power of Knowledge and the help of Technology in the November-December 2021 period we will virtually go through the in-depth stages developed by the protagonists themselves who will NOT be able to replace the experience in the field with the hope that this can happen in the near future and that it will be useful as a stimulus to highlight the importance of experience in the field. We will try to reflect together on the transformations that the post-COVID19 era introduces in the Parks and in the development of the territory and international relations.

Winter School Programme 2021

Day 1 – December 6, 02:30 pm

Welcome & Introduction

Prof. Massimo Midiri, Rector of UNIPA

Prof. Valerio Agnesi, Director of IIRFRE

Prof. Attilio Sulli, Director DiSTeM

Dott. Domenico Barbuza, President of Nebrodi Park

Prof. Evgeny Martynenko, RUDN University, Moscow

Prof. Tatiana Shimko Lomonosov, State University, Moscow

IIRFRE presentation

Valerio Agnesi UNIPA

Physical and Geographical Framework of Sicily

Valerio Agnesi UNIPA

Activities for student: ideas for Nebrodi park videos

Andrea Savona, Leonardo Gatto, Daniela Parrinello, Matteo Cammarata UNIPA

Video 1

Day 2 – December 13, 02:30 pm

The How to educate to sustainability - The action of the Nebrodi's Park

Sara la Rosa NEBRODI PARK

The Pleistocene site of San Teodoro Acquedolci /Human evolution

Luca Sineo UNIPA

Botanic Aspects of the Nebrodi Mountains

Angelo Troia UNIPA

Video 2

Day 3 - December 17, 02:30 pm

The impact of alien species on wildlife

Maria Giovanna Parisi - UNIPA

Under definition

Anna Popkova, RUDN Moscow

Double title UNIPA-RUDN: the student experiences

Giuliana Amorello

Video 3

Day 4 - January 12, 02:30 pm

Evaluation of landslide hazard: concept, methods and case studies

Christian Conoscenti - UNIPA

Soil erosion and reservoir sedimentation: a focus on agricultural conservation and management practices

Aleksey Sheshukov - KANSAS STATE UNIVERSITY

Video 4

Day 5 – January 18, 02:30 pm

Sicilian Volcanism in Sicily

Silvio Rotolo - UNIPA

Under definition

Massimiliano Fenice UNITUS

Under definition

Rosario Miceli UNIPA

Under definition

Marcello Tropeano UNIBA

Day 6 – January 25

Cerimonia conclusiva

(S. Agata)

Conclusioni

*“The Nature, a
precious asset for our
health”*
